Mindsquare GmbH

Mr. Timm Funke (Head of Human Resources) ,

I am writing to express my interest in internship opportunities at Mindsquare GmbH. I am currently pursuing a Master's in Computer Science at the University of Paderborn and I would like to apply for a **Working Student IT Administration** position where I can apply my skills, gain industry experience, and contribute to meaningful projects within your organization.

My background includes internships in backend development using JavaScript, Node.js and MongoDB, Python-based data analysis & development and UI/UX design. These roles have equipped me with hands-on experience in developing RESTful APIs, performing data-driven tasks using Python libraries, and understanding the interaction between frontend and backend layers. Through these experiences, I have built a solid foundation in software development, scripting, and system design.

I am ready to dive into **IT Administration** as the first point of contact, handling 1st-level support for hardware and software. With strong skills in Python, JavaScript, databases (MongoDB/MySQL), Git, and tools like VS Code and Jupyter, I can build and maintain technical foundations, manage user setups, and improve systems from research to implementation. I learn quickly, think analytically, and love supporting teams with dependable solutions.

Mindsquare GmbH innovative work in IT aligns closely with my interests and career goals. I would be excited to contribute to your projects, bring a fresh perspective, and continue developing my professional skills within your dynamic environment.

Thank you for considering my application. I look forward to the opportunity to further discuss how my experience and motivation can support your team.

Sincerely,
Zalak Chauhan
